DISTRICT & COUNTY DATA SNAPSHOT | 2022-23 TO 2024-25

District final ADM changed **+0.3%**; Mecklenburg County residents ages 5-17 changed **+2.6%**. These describe different geographic units and do not identify student transfers or changes in district market share.

District final ADM	**County homeschool share**	**County residents ages 5-17**
2024-25	**Matched 2024-25**	**July 1, 2024**

Three-year enrollment and population context

School year	District final ADM	County ages 5-17*	County homeschool students
2022-23	140,437	186,740	11,062
2023-24	140,199	188,429	11,580
2024-25	140,801	191,550	11,626

* Population is estimated on July 1 of the school year's starting calendar year. All three years use Census Vintage 2025. District enrollment uses NC DPI final ADM, an annual average of membership, not a point-in-time headcount. County population and district enrollment differ in age coverage and geography; do not divide them to calculate district market share. [1-3]

County Opportunity Scholarship snapshot

School year	County-resident recipients	Funds disbursed
2022-23	1,711	$9,579,595
2023-24	2,150	$13,288,433
2024-25	7,858	$39,174,767

Final NCSEAA payments for residents, including those attending private schools outside the county. Excludes ESA+. Recipients may already have attended private schools; these amounts do not identify district budget losses. [4]

Network and geography

Across TIP's 18 county markets, 2024-25 homeschool shares range from 3.5% to 14.6%. Mecklenburg is 14 of 18 by share (highest = 1), not a district performance ranking. 112 private schools are listed in the county's January 2026 directory. [2, 5]

County-level enrollment provides broad context for this district. Cross-county attendance and differences in sector definitions limit precise resident market-share comparisons. Homeschool estimates may be affected by registry cleanup; changes do not establish transfers to or from district schools. [3]

Enrollment shares and counts | 2022-23 to 2024-25

Sector	2022-23 share	2023-24 share	2024-25 share	Change (pp)
District public	72.0%	71.3%	70.8%	-1.3
Charter, lab & regional public	11.6%	12.2%	12.4%	+0.8
Private (estimated)	10.7%	10.7%	11.0%	+0.3
Homeschool	5.7%	5.9%	5.8%	+0.2

Shares use each school year's total across the four groups. District-public counts use the same final ADM records as the district snapshot. Changes are percentage points (pp), 2022-23 to 2024-25. These county-associated administrative counts are not district-of-residence shares. Charter, laboratory and regional public schools form one combined group, separate from district-operated public schools. [2]

Sector	2022-23 students	2023-24 students	2024-25 students
District public	140,437	140,199	140,801
Charter, lab & regional public	22,627	23,971	24,700
Private (estimated)	20,857	20,965	21,882
Homeschool	11,062	11,580	11,626
Total	194,983	196,715	199,009

Estimated shares of county-associated enrollment

These are not shares of resident children. Virtual-school ADM assigned to Durham serves students statewide. DNPE private enrollment is estimated; only 757 of 930 private schools completed the 2024-25 annual report, so figures may be stale.

DNPE estimates students separately from registered home schools. The January 2026 directory lists 112 private schools in Mecklenburg County; this directory snapshot is separate from the annual enrollment series. Scholarship funding follows student residence, including attendance outside the county. Neither measure identifies district budget losses. [3-5]

County-level enrollment provides broad context for this district. Cross-county attendance and differences in sector definitions limit precise resident market-share comparisons. Shared-county values repeat in multiple district reports; do not sum duplicate county figures. Sector age coverage and cross-county attendance limit resident-child comparisons. County public totals follow the compilation: Kannapolis is grouped with Cabarrus; Rowan includes Rowan-Salisbury only. Official source links appear in the network overview.

What the changes mean

Every share uses the same-year county total across all four groups. Both public groups use refreshed DPI final ADM. The combined group consistently includes charter, laboratory and regional schools; DNPE supplies private and homeschool estimates. A sector can gain students while losing share if other sectors grow faster. County-associated counts can include cross-county attendance; these are administrative market indicators, not a resident-child census.

County figures cover multiple districts where applicable. Randolph County cannot isolate Asheboro City residents; Davidson cannot isolate Lexington or Thomasville. Edgecombe's boundary transition limits comparisons. Share changes do not identify student transfers or explain why a change occurred. Rounded displayed shares and changes may not sum exactly.

DNPE estimates may contain stale reports: 757 of 930 private schools completed the 2024-25 annual report. Statewide virtual-school ADM is assigned to Durham by school location; it is not Durham resident enrollment.

Statewide program context

Statewide disbursements were $134.6M in 2022-23, $185.6M in 2023-24, $432.2M in 2024-25. The program figures exclude ESA+.

Scholarship recipients overlap private-school enrollment and may already have attended private schools. These figures do not identify prior public-school attendance, district withdrawals, all private-school revenue, or money removed from a district budget. County school-location counts are a separate geographic measure.

Population context and boundaries

Each district's pages pair final ADM with its county's July 2022-2024 residents ages 5-17, using Census Vintage 2025. Population is not an enrollment sector; district and county age/geographic coverage differ. Dividing the district count by county population would not yield valid district market share. Edgecombe's 2024-25 boundary transition limits constant-boundary comparisons.
